

# BOTIFY

## Whatsapp Automation & Marketing

### **Grow your business on WhatsApp**

Personalize Communication and Sell more with the WhatsApp Business API Platform that Automates Marketing, Sales, Service and Support.

**Features** - Smart tools for efficient and personalized communication

#### 1. Broadcast Communication

Push out your campaigns and engage with high response WhatsApp messages.

#### 2. Chatbots

Create no-code chatbots to provide instant responses to common requests.

#### 3. Multiple agents

Share the Botify inbox across your team with support for an unlimited number of agents.

#### 4. Notification & Alerts

Simplify mass communication and personalized responses with automated tools.

#### 5. CRM Integration Systems & Tools

Customize your own CRM fields, manage bookings, and optimize engagement – all from one central system.

#### 6. Easy integrations

Pre-built integrations let you integrate with your tech stack and configure in a few clicks.
